

RD

Rain Deflector

Poweramp Rain Deflector Xtreme – provides an excellent barrier to water runoff from the tops of trailers entering the building, especially at declined docks. The RD Xtreme is designed for docks that service a wide range of vehicles and can seal most trailer sizes. Designed for versatility, the Rain Deflector is compatible with all dock seals and most dock shelters.

FEATURES

- Multi-layer water defense system
- Mounts over existing seals and shelters or can be combined with a new installation for a seamless product
- Covers truck heights ranging from 12'6 to 13'6-inches
- 20-inch projection beyond the seal/shelter for greater coverage
- 5-inch foam-filled pad deters water runoff from trailer tops
- High-density polyurethane foam for added resiliency
- Frame is made from pressure-treated, kiln-dried wood
- Side flaps with stay pockets for draft protection
- Heavy-duty steel brackets provide reinforced snow load support
- Raked header for enhanced water drainage
- Header has a translucent fiberglass top
- Face is removable for quick replacements when necessary
- All sew lines are lock-stitched and reinforced with UV-resistant thread
- Heavy-duty steel brackets provide reinforced snow load support

OPTIONS:

- Custom projection up to 48-inches total from wall
- Traditional head curtain
- Pad drop over 44-inches
- Frame cut-outs for obstructions
- Galvanized steel head frame
- Spring steel stays
- Overhead cable supports*

** Cables required for certain applications*
